

AUDIAS HERNANDEZ

Dear Family and Friends,

March 18, 2020

This is my way of saying goodbye to so many people as I continue on my journey.

I had health challenges as many of you know, but I am surprised to find myself on the road to my village in Mexico. They say here [heaven] that when you have a heart attack, you are here before you know you left there!

Anyway, family is having a service today for me in Georgia where I lived for a few months. And my town and family in Mexico are waiting for me to do our tradition of a 9- day novena prayer vigil.

Anyway, I died (whatever *that* means) March 17 very early in the morning with family and my wife Carole by my side.

Please stay safe, tuck me in your memories and hearts. I'm gone and my celebration is just starting endlessly here. Please take care of yourselves during a dangerous time there and just keep your private memories of me;

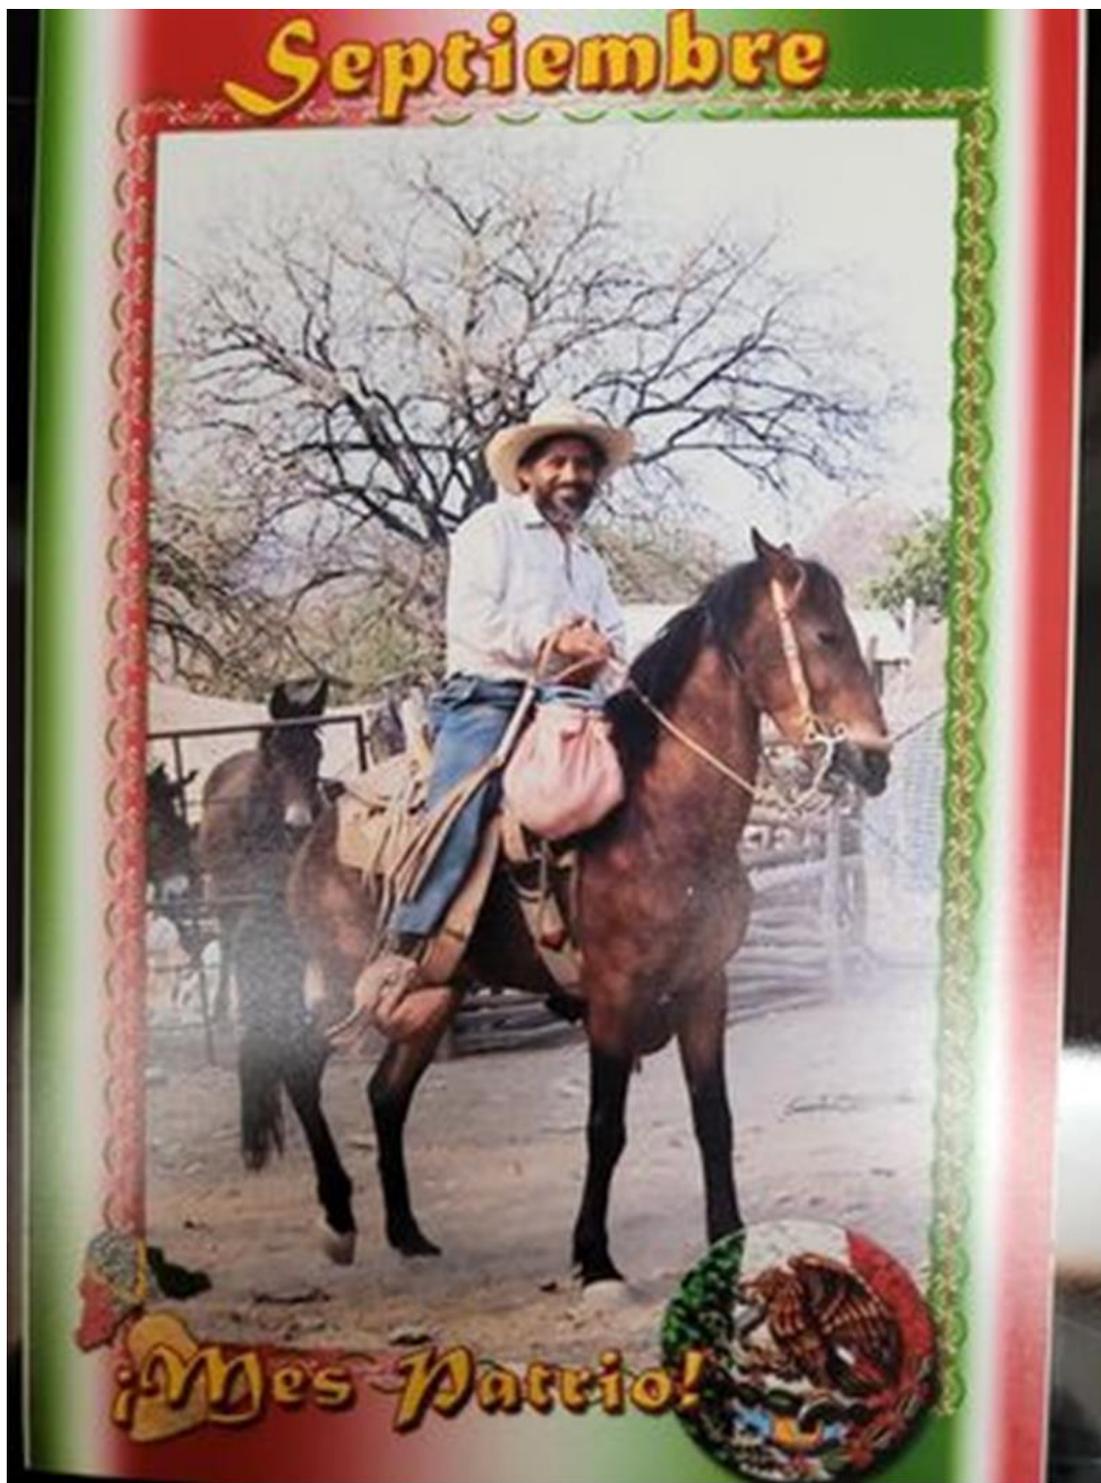

please don't risk getting together. You know I am a private person anyway and prefer your thoughts

only! God's Blessings for you. Have to go — like life, the cattle are not stopping in their journey nor in their growing!
